Wellness for hands and feet

# b-on-foot

## About us

Bahner Feinwerktechnik GmbH has been developing and producing professional foot care devices for the market leader in Germany since 1997. With its own brand b-on-foot, the family business has become a full-range supplier. In addition to the innovative foot care devices and the extensive range of accessories, pedicurists and chiropodists can find everything they need for foot care, from practice equipment and cutters to the sustainable Laja care series.

## Why b-on-foot?

Proven foot care technology meets innovative voice control, fresh colors, and touch operation to create beauty devices designed for ultimate comfort. Thanks to contactless control, users enjoy the highest level of hygiene and maximum convenience when caring for nails, hands, and feet.

# b-on-foot aqua

Refreshing care for a gentle treatment!

available colours:

## Flexibility without compromises!

- innovative spray technology for pleasant freshness with every treatment
- up to 30 treatments without a power connection thanks to high-performance battery
- perfect for mobile use and daily studio operations
- gentle spray technology for a new sense of comfort during manicure & pedicure
- precise miling technology for efficient and accurate work
- maximum mobility with maximum performance

## Smart, hygienic, comfortable - a new approach to control

The control of b-on-foot is easier than ever - thanks to the smartphone and voice assistant.

- pre-installed b-on-foot app on the smartphone supplied
- simple adjustment of spray volume, speed and LED light
- voice control via Bonnie - hygienic, contactless, efficient
- decentralized control: no more unnecessary bending over
- document treatments and save customer data

## Modern design & sophisticated functionality

With its stylish design in white, orange, rosé, yellow and green, the b-on-foot aqua blends harmoniously into any practice. The combination of innovative technology and an aesthetic look makes every treatment a high-quality and pleasant experience.

# b-on-foot air

More freedom, more comfort - extraction technology redefined!

available colours:

## Suction technology rethought!

The b-on-foot air is the world's first suction device with optional rechargeable battery technology - for cordless work at the highest level.

- up to 24 treatments without a power connection
- ideal for mobile applications in hospitals, wellness hotels, senior residences or outdoors
- no sockets or extension cables needed
- maximum freedom of movement with full suction power
- flexible and efficient for every treatment situation

## Modern design & sophisticated functionality

The b-on-foot air impresses with its stylish design in white, orange, rosé, yellow and green and fits perfectly into any practice. The combination of innovative technology and an elegant look turns every treatment into a professional experience.

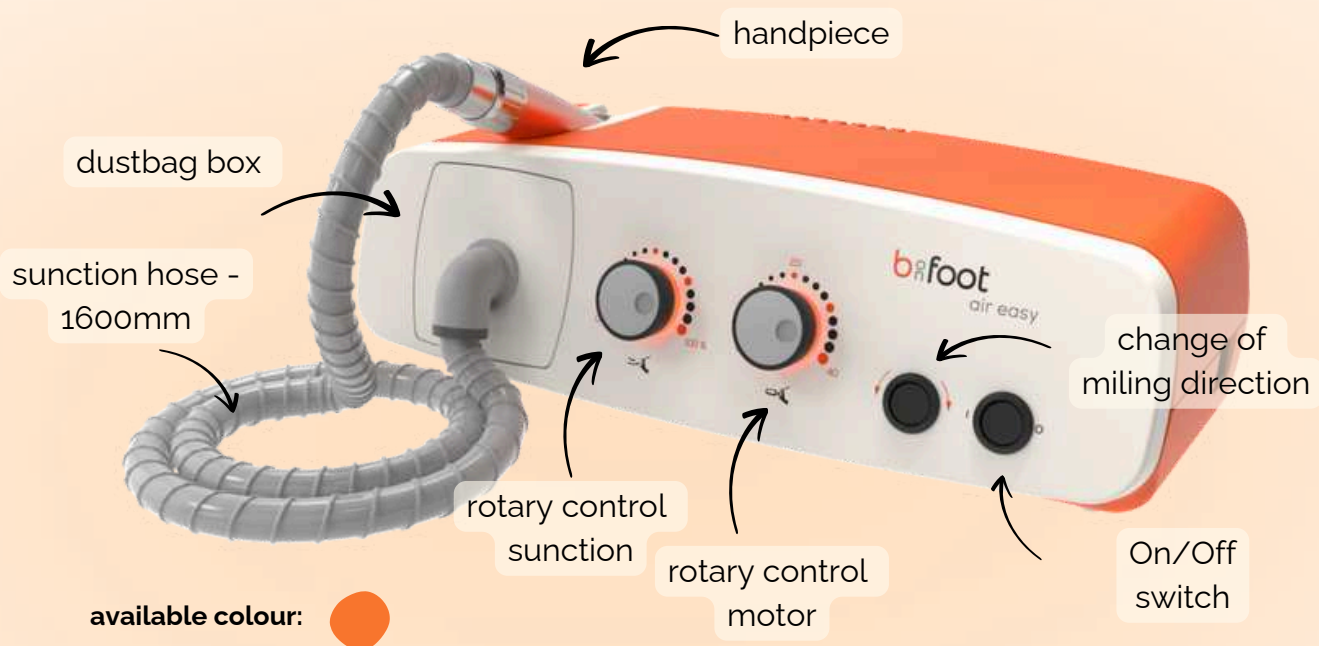

## Intuitive control via smartphone and voice control

- b-on-foot App pre-installed - no internet connection required
- available in the Google Play Store and Apple App Store
- touch operation for suction power, speed and LED light - can also be used with gloves!
- voice control with Bonnie - contactless and hygienic
- decentralized control via smartphone - no bending down, back-friendly work
- smartphone included in purchase - all functions ready for immediate use
- save customer data and document treatment successes
- efficient complete solution for mobile and stationary treatments

# b-on-foot air easy

## The perfect introduction to professional foot care!

The b-on-foot air easy combines proven technology with user-friendly operation, making it the perfect choice for both beginners and experienced pedicurists looking for a powerful, reliable and easy-to-use device. Thanks to its attractive price-performance ratio, it offers the ideal entry-level solution without compromising on quality and functionality.

### Precise control - with proven performance

- designed for powerful performance with simple operation
- intuitive control via two rotary knobs
- precise adjustment of suction power and speed
- no complicated menus - direct, fast and efficient

### Performance & durability for the highest demands

- speed range; 3,000 to 4,000 rpm
- suction power: 155 L/min - for hygienic and clean work
- brushless micromotor for powerful performance
- less heat generation - ideal for longer treatments
- virtually wear-free - particularly durable and reliable

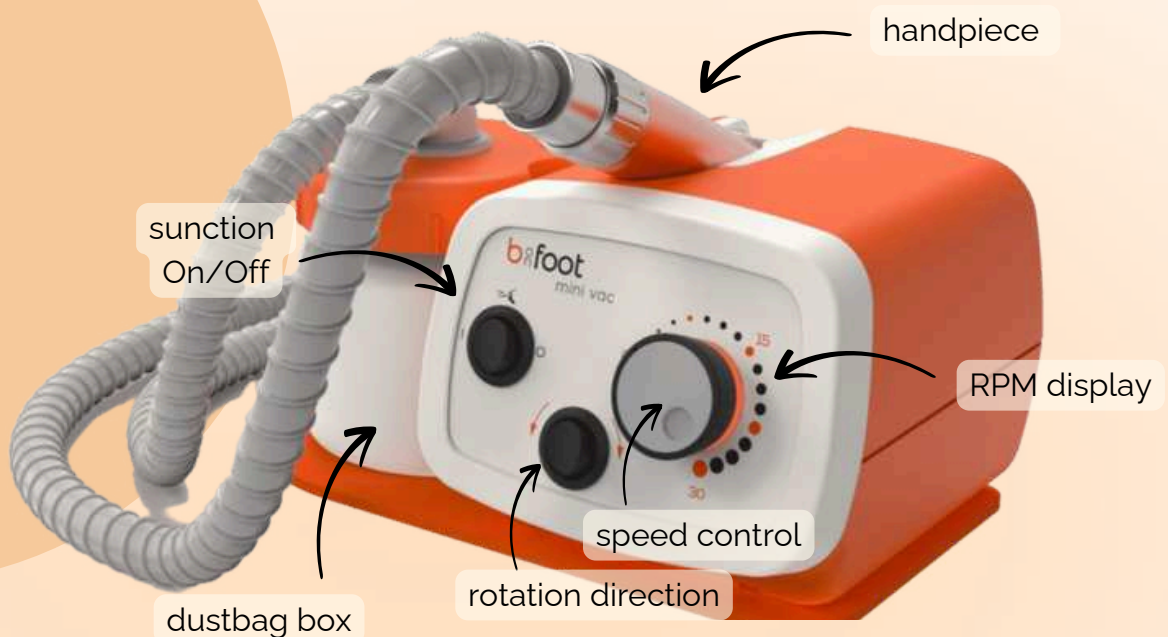

# b-on-foot mini vac

## Maximum power, minimum size!

The b-on-foot mini vac is the perfect combination of precise milling performance and powerful suction - ideal for the practice or mobile use. Weighing just 1,400 g, it is particularly easy to transport and ready for use anywhere.

available color:

### Power and flexibility in one device

- Variable speed from 3,000 to 30,000 rpm for full control
- Integrated suction with 150 L/min for a clean working environment
- Ergonomic aluminum handpiece - only 160 g light
- 1.6 m long suction hose for maximum freedom of movement
- Simple operation & intuitive control
- Orange LED display clearly shows operating status

# b-on-foot mini spray

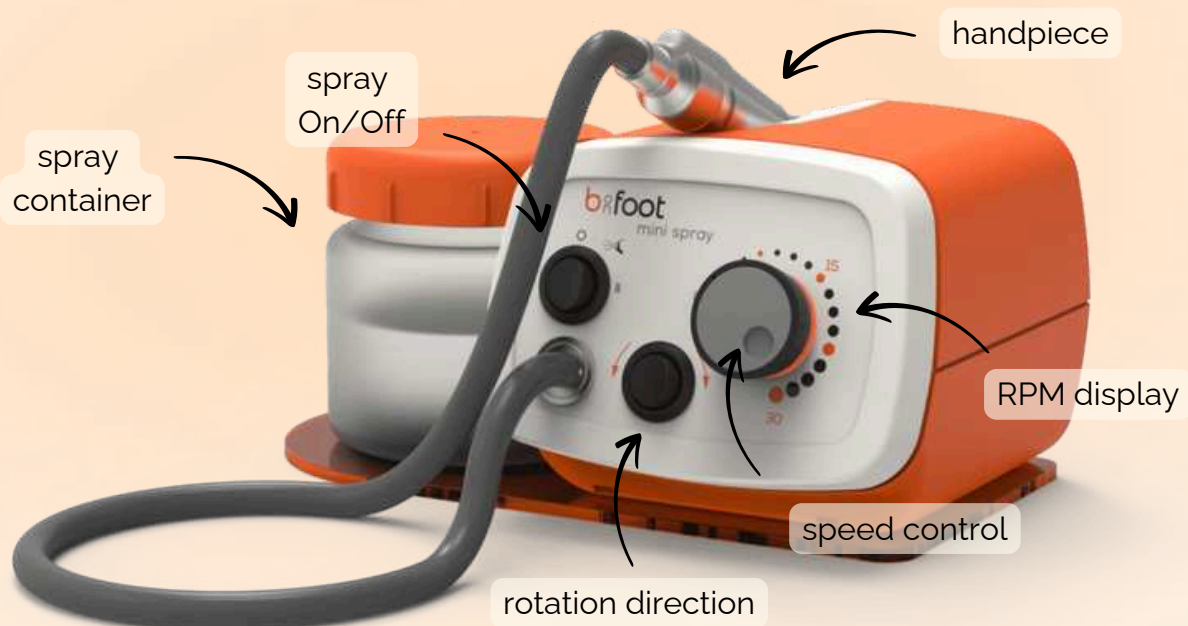

## Light, compact and refreshingly efficient!

The mini spray is a real all-rounder for efficient treatments, whether in the practice or on the go. With its compact design and a weight of just 1,700 g, it is easy to transport and ensures pleasant freshness during treatment thanks to the integrated spray function.

### Simple operation and visual control

The mini spray has been developed for particularly intuitive and convenient operation, so that you can concentrate fully on your treatment. You can activate the spray function with just a single button - quickly and easily. The milling speed can be individually adjusted using a precise rotary control so that you have full control over your work at all times.

The orange LED display, which signals the mains connection and shows you at a glance whether the device is ready for operation, provides additional safety. This means you always have an overview and can work efficiently and stress-free.

### Sprayfunctions

*Level 1:* 25 sprays per minute for gentle moisturizing

*Level 2:* 120 sprays per minute for intensive moisturizing

*Turbo level:* simply activate the continuous spray mode using the side button for maximum efficiency

### miling speed

3,000 bis 30,000 rpm

Mini-Series

# b-on-foot micro spray

NEW

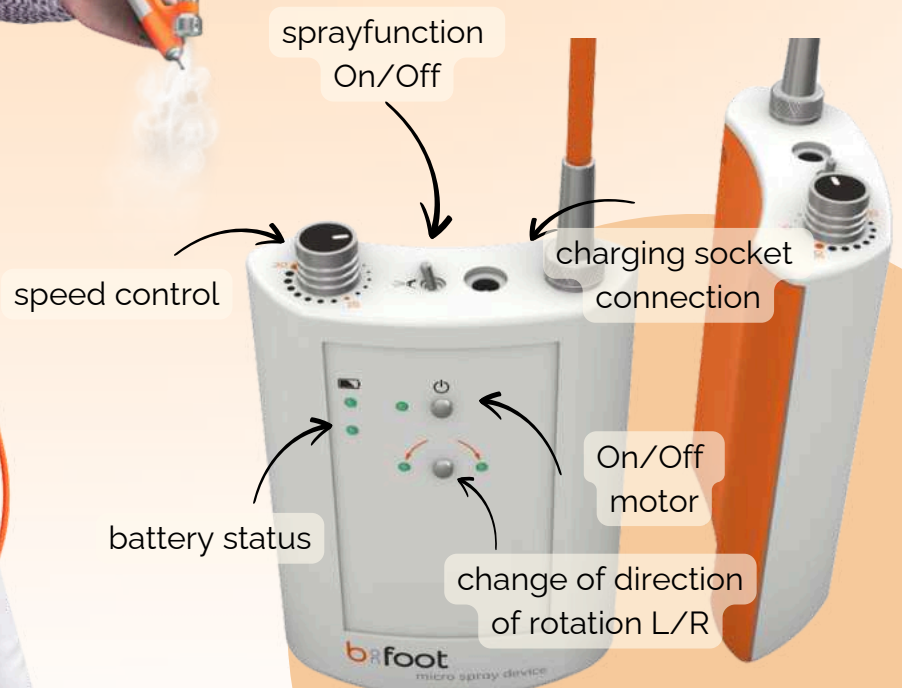

## The future of mobile foot care

Experience a completely new dimension in foot care with the Micro Spray - compact, mobile and innovative. This ground-breaking device combines maximum flexibility, maximum comfort and intelligent technology in a unique concept. Whether in the practice or on the move - the Micro Spray sets new standards and makes your work even more efficient.

### Compact design for maximum freedom of movement

- Extremely light: total weight only 600 g
- Compact dimensions: only 15 × 11 × 5 cm
- Can be worn directly on the body thanks to practical waist belt
- 1 meter long detachable motor cable for unrestricted freedom of movement

available color:

# b-on-foot micro spray

NEW

## Individual fragrance experiences

A special highlight of the micro spray is the innovative cartridge system, which allows you to customize the fragrance of your foot spray to suit your customers' wishes or the treatment atmosphere.

Choose between:

*Lemongrass* - invigorating and refreshing

*Lavender* - relaxing and soothing

*Neutral* - for a pure, discreet application

Each cartridge lasts for approx. 10 minutes of spraying. This ensures that you always provide an individual feel-good experience - tailored to the needs of your customers.

## Powerful & intelligent - technology that inspires

- Infinitely variable speed control up to 30,000 rpm for full treatment control
- Maintenance-free handpiece motor - durable and reliable
- Integrated battery unit for cordless working
- Over 2 hours running time without power connection
- Quick-charging function - charging time under 2 hours
- Perfect for on the go: compact, efficient and always ready for use

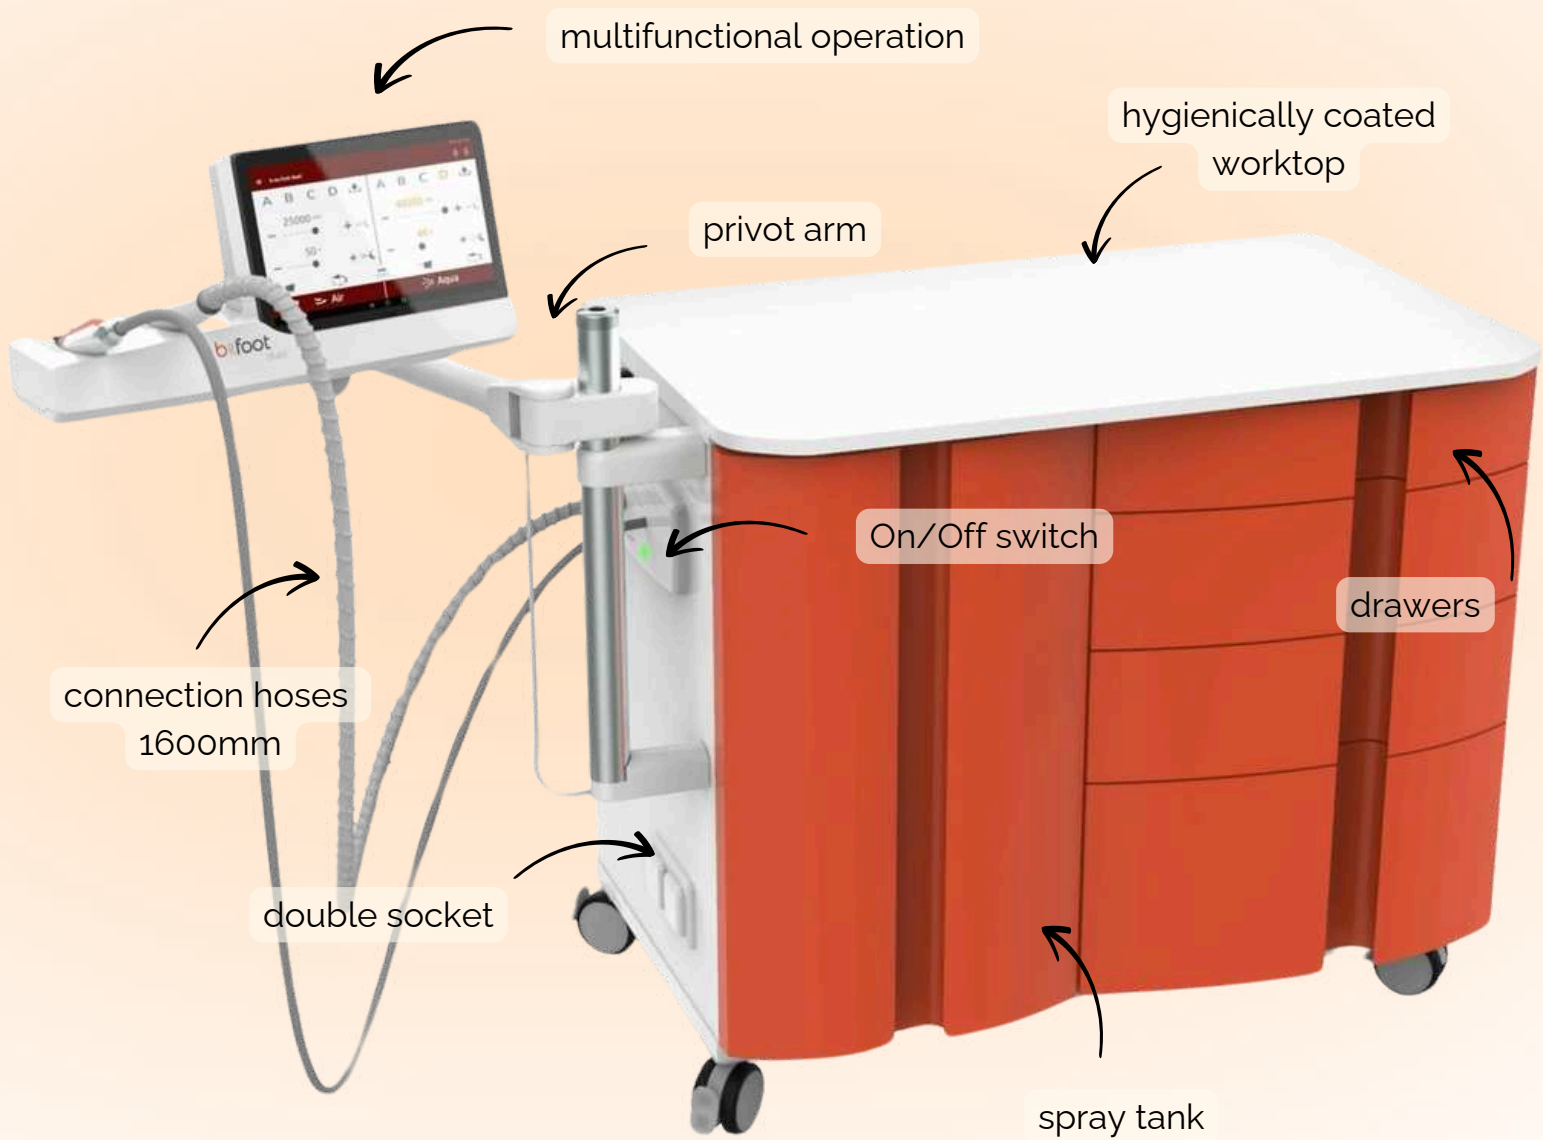

## Everything included - your complete set for the perfect start

The micro spray comes with everything you need for immediate use:

- Micro spray device incl. motor unit
- Waist strap for flexible carrying
- Charging cable
- Service pack for optimum maintenance
- 18 spray bottles (6× lemongrass, 6× lavender, 6× neutral)
- Instructions for use

# b-on-foot duet

The treatment center for the highest demands

# b-on-foot duet

- Two technologies in one device: spray and suction technology for maximum flexibility
- Perfect customer experience: simply switch between refreshing spray and dust-free suction
- Ergonomic handpieces: Quiet, low-vibration, with LED - always ready for use
- Intelligent control: Touchscreen tablet with memory function - can also be operated by voice command
- Comfortable working: Hygienic work surface, robust rolling unit & plenty of storage space
- Professional & efficient: For clean, pleasant treatments at the highest level

Bonnie - your voice assistant is also available for the tablet

More spray? Higher miling speed and light? In future, no one will have to interrupt their treatment! Because the digital voice assistant Bonnie listens to voice commands to control the professional foot care devices: in future, you will only have to use your voice to control the right or left rotation, speed or spray volume - because it's more hygienic!

# b-on-foot chair II

## Comfort and flexibility for every treatment

A high-quality treatment chair is the basis of professional foot care. The b-on-foot chair II offers maximum comfort and adapts to your needs - with four individually adjustable axes: height, backrest, leg rests and overall tilt. The soft upholstery and choice of fresh colors make it the stylish focal point of any practice.

# b-on-foot chair II

## Simple control via app or manual operation

Control the b-on-foot chair II conveniently via the b-on-foot app, which can also be used for other devices. Save up to four individual sitting positions even faster. Alternatively, the chair can also be operated using the hand control supplied.

## Design according to your wishes

Choose your favorite color from a wide range of colors and let the b-on-foot chair fit perfectly into your practice environment.

## b-on-foot stool - Ergonomic seating comfort for professionals

Matching the b-on-foot chair is the b-on-foot stool, an ergonomic treatment stool with an upholstered seat, five castors and a gas pressure spring. With a height adjustment of 45 to 60 cm, it offers optimum mobility and the same comfort that your customers enjoy.

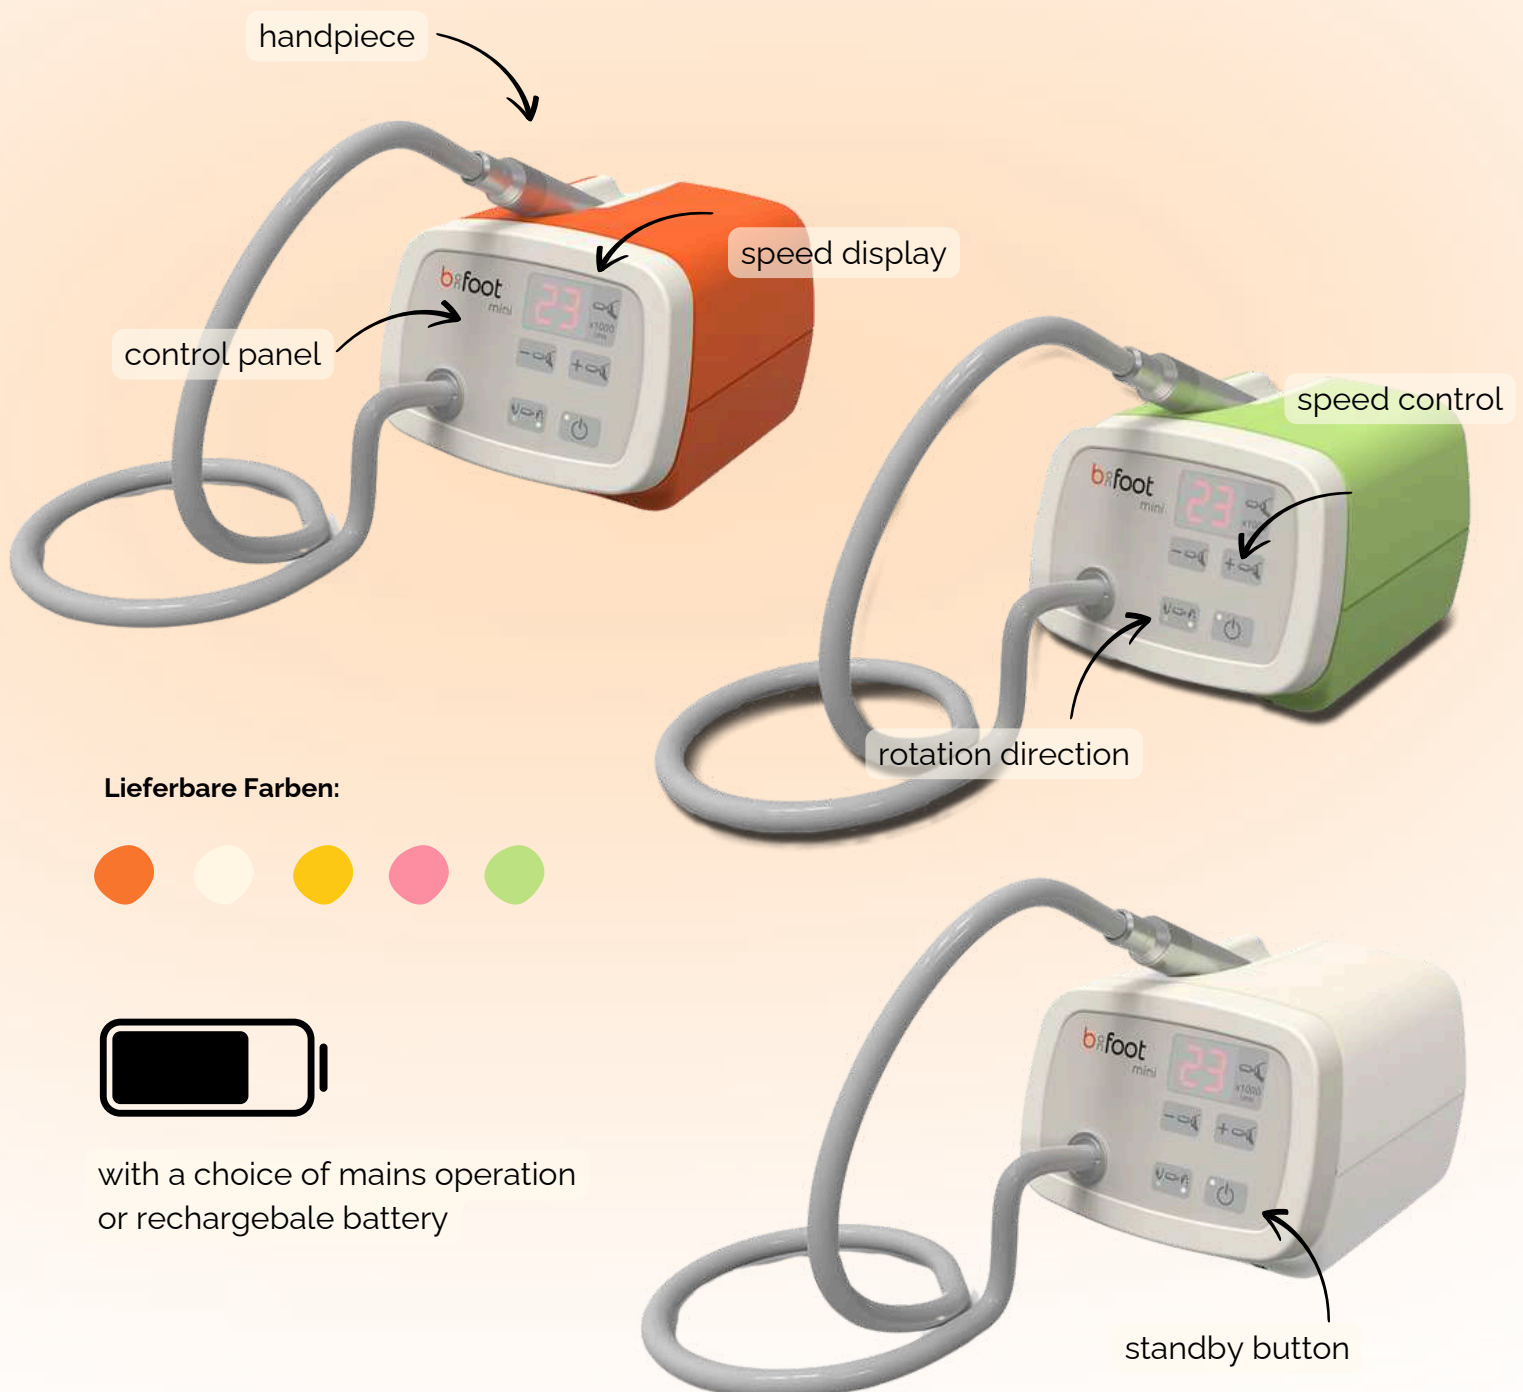

## Choose your favorite color!

Perle	Safran	Orange	Karneol
Feuer	Kirsche	Cyclame	Royal
Atoll	Türkis	Limone	Bordeaux
Chrom	Anthrazit	Apfelgrün	Schwarz

# b-on-foot mini

## The lightweight with power!

The b-on-foot mini is aptly named: small, light and powerful - whether in the studio or on the move - the modern design in white, orange, rosé, yellow and green sets stylish accents and conveys a feeling of well-being and wellness. The b-on-foot mini is the perfect choice for anyone who doesn't want to miss out on professional performance on the move! It offers maximum flexibility, whether for nail, hand or foot care. The cordless battery version in particular ensures unrestricted freedom of movement so that you can work independently anywhere. The ergonomic handpiece weighs just 170 g and enables fatigue-free working over long periods, while the compact design of the basic device, which weighs just 730 g, makes it easy to handle and effortless to transport.

# b-on-foot equipment accessories

## Perfectly equipped - accessories, protection & organization

Whether in different wellness areas, at different locations or simply for more flexibility - with the b-on-foot accessories you are always perfectly equipped. Do you need more light, a transportation solution or practical storage? Here you will find the perfect addition for your professional work.

### **b-on-foot suitcase - safe protection for your device**

The robust hard case offers optimum protection for the air, aqua and air easy and plenty of storage space for accessories. Perfect for home visits and mobile use. Why carry heavy things when it's easier?

The b-on-foot trolley allows you to hang the hard case securely and roll it effortlessly to its next use.

Fitting to  
this!

### **b-on-foot sun - The flexible LED treatment light**

The b-on-foot sun with state-of-the-art LED technology ensures optimum lighting conditions - no matter where you are working. Flexibly adjustable, it makes you independent of the surroundings and creates perfect viewing conditions for your treatments. The light can only be used with the air and aqua devices.

# b-on-foot equipment accessories

## **b-on-foot Stepwalker - mobility made easy**

The b-on-foot Stepwalker was developed to make the mobile working day in foot care even more comfortable and efficient. With a low tare weight of just 8.9 kg and multiple wheels suitable for stairs, transporting your equipment is made considerably easier - no matter where you are going.

One of the most important innovations is the integrated backpack function, which allows you not only to pull the Stepwalker, but also to carry the lower bag comfortably on your back. The upper bag has also been optimized: A side cable design ensures comfortable working with the mains cable, while the integrated case light holder provides perfect lighting conditions during treatment.

# b-on-foot equipment accessories

## **b-on-foot mini bag - stylish & safe storage**

The b-on-foot mini bag was specially developed for the mini series and reliably protects your mini vac, mini spray or mini. Integrated side pockets provide additional storage space for power cables, instruments and miling tools. Thanks to the practical carrying strap, you are always mobile and perfectly organized. Made from a particularly robust, truck tarpaulin-like material, the bag is extremely durable, easy to clean and disinfect - perfect for professional use.

## **Device bag for b-on-foot - The perfect combination of protection, functionality and sophisticated design**

This high-quality carrying case was specially developed for the b-on-foot air, air easy and aqua devices and offers optimum protection and convenient use. It has sufficient storage space to keep power cables, instruments and other accessories safe and organized - everything stays in its place and is immediately to hand.

The side cable design makes it easy to work with the mains cable, while the integrated case light holder ensures optimum lighting during treatment. Just like the mini bag, this bag is also made of robust material similar to truck tarpaulin. Thanks to the adjustable shoulder strap, it can be carried comfortably over the shoulder, allowing you to work flexibly and comfortably on the move.

# Laja

## Our foot care for your success in your studio!

Laja foot care impresses with high-quality ingredients, rich textures, a great design and a good feeling. Laja is a cooperation between b-on-foot and perfumery Thiemann. With over 50 years of experience in foot care and beauty, it is a joint project close to our hearts to bring foot care to everyone's attention.

Laja foot care is cruelty-free produced in Germany.

You will find organic fragrance oils in our products. Laja is packaged with recycled packaging material.

We completely avoid animal products.

Laja foot care is designed to make your feel-good moments tangible throughout the day. For every time of day or mood, you will find the right product to strengthen your foundation. So that you can always tell your favorite products apart at first glance, your Laja products are perfectly color-coordinated. This means you always have the right product to hand - depending on the time of day and your mood. Because we all know: A cool head starts with the feet.

# b-on-foot customer service

## Our professional maintenance package

We recommend regular maintenance and care - the cosmetic appliances should be serviced by us once a year, every 2,500 applications or 250 operating hours.

## What services does the service include?

The following work is carried out at our location Bautzen:

- Comprehensive function test
- Cleaning of the device (inside and outside)
- Software check and update if necessary
- Replacement of all wear parts in the handpiece (both shafts incl. bearings, clamping bed, clamping pins, clamping bush, dust or drip cap)
- Cleaning of the suction unit or spray unit
- All other damaged parts will be replaced at cost and by arrangement.

**b-on-foot** products are manufactured in our medium-sized family business Bahner Feinwerktechnik with sustainable raw materials produced in Germany.

Bahner Feinwerktechnik GmbH has been certified according to the **international quality standard ISO EN DIN 9001** and demonstrably fulfills the highest standards in product development and manufacturing.
